TRAVEL TIPS

Walt Disney World Resort in Florida: It's the place where dreams come true. Imagine four Theme Parks, two Water Parks, two exciting night-time entertainment districts, and a state-of-the-art sports complex. Now, add in over 20 themed Resort Hotels, plus countless opportunities for dining, shopping and recreation, and it's easy to see why *Walt Disney World* is the number one holiday destination in the world.

Trip Planning: The planning stage of your trip can be instrumental in its success and an enjoyable part of the experience itself. You have a world of options...and plenty to consider.

Entry and Exit formalities: If you are flying to the US, the first airport that you land in is where you must go through immigration and customs, even if you are continuing on the flight to another destination. Upon arrival, all international visitors must register with the Department of Homeland Security's Office of Biometric Identity Management program, which entails having your fingerprints scanned and a digital photo taken. Once you go through immigration, you collect your baggage and pass through customs. If you have nothing to declare, you'll probably clear customs without a baggage search, but don't assume this. If you are continuing on the same plane or connecting to another one, it is your responsibility to get your bags to the right place. There are usually airline representatives just outside the customs area who can help you. Every visitor entering the USA from abroad needs a passport. Your passport must be valid for at least six months longer than your intended stay in the USA. Also, if your passport does not meet current US standards, you'll be turned

back at the border. You must have multiple entry visa. For the visa application process, please contact us.

Transportation: Figuring out how to get around is one of your biggest pre-trip decisions. Get our holiday expert best advice on deciding between your options.

Money: Use your money wisely. Know the best time to use cash or card — and how to avoid unnecessary fees either way — as well as tipping etiquette, and how shoppers can take advantage of VAT refunds.

Phones and Technology: Phones and other smart devices can be huge time-savers...or expensive distractions. Get our tips for making the best use of technology during your trip, and for calling home with or without your own phone.

Packing Light: On your trip, you'll meet two kinds of travellers: those who pack light and those who wish they had.

Sleeping and Eating: Your hotel and restaurant choices can be a matter-of-face chore...or they can provide rich opportunities to connect with locals and their culture.

Health & Hygiene: Take comfort: Doctors, hospitals, laundrettes, and bathrooms aren't that different. Dealing with them can even be part of the fun of travel.

Sightseeing & Activities: Once you're on the ground, the real fun begins...but it pays to have a thoughtful plan. Our experts will help you get oriented to your surroundings, use your sightseeing hours wisely, and find your way off the beaten path.
